

Weekly Report

20170403-20170409

Han Dongming April 09 2017

Paper

- Graph
- Probability data

I think it's very interesting to make a forecast for probability data by visualization methods like graph.

Tool

- Latex

It's very important, and I will write weekly reports by Latex like others' work in the future

- Vue.js

It's a easy tool to build web like angular or react. so when we want to find other students help us code about JS, Vue.js is a great and easy way for them to grasp it.

- Python3
- Element

Css components for Vue.js

English

It's really a big problem. Come on!
